

ROBERT SCHUMAN FOUNDATION AND TRUST

Dear BIOMEDICAL NYRT!
Dear BOARD OF DIRECTORS!
Dear Dr. Sandor Kovacs CEO!

Allow me to congratulate you from across the sea in the United States for your current work and for your plans for a healthy future. Do not think that the U.S. is so far away from your country when you are developing such a sensational invention. In fact, in our thoughts and in our plans **ROBERT SCHUMAN FOUNDATION AND TRUST** shares a similar responsibility for the use of green energy sources like you, so we are closer to each other than we think.

Our company **ROBERT SCHUMAN FOUNDATION AND TRUST** in the USA's state of Florida. We are mainly dealing with energy investments. Throughout the world, we pay close attention to those firms whose inventions consciously seek to reduce the CO2 emissions of our world and are developing, researching for low energy solutions. Our company **ROBERT SCHUMAN FOUNDATION AND TRUST** is closely related to the **UNITED STATES ENVIRONMENTAL PROTECTION AGENCY** and will do our best for supporting sustainable energy production and consumption.

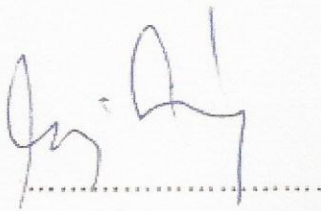

Dear Dr. Sandor Kovacs CEO!

We didn't contact BIOMEDICAL NYRT by accident. We noticed that you are on negotiations with **TERMOCYCLE** named Dutch company, which has its headquarters in Amersfoort. (www.termocycle.com) Mr. Dezső Bartos, **TERMOCYCLE** Company's agent offered **BIOMEDICAL**'s CEO their cooperation. We want to offer similar partnership. Our specialists are particularly interested in your research and development results of hydrogen-gas technology. It is certain that **BIOMEDICAL** and the well known **TERMOCYCLE** also realized, that the developed Hydrogen is not only useful in car engines, but also to produce the electricity to drive turbines manufactured in the Netherlands.

If **BIOMEDICAL NYRT** decides to contact us at **ROBERT SCHUMAN FOUNDATION AND TRUST**, we will initiate negotiations for the utilization of your manufactured hydrogen accumulators. We intend to make a business offer of 10.000.000\$ purchase , if we know your conditions.

We are awaiting your reply.

Yours truly

Stephen Ugrai - CEO of RSF and Trust
