

## **BALÁZS TORDA**

He graduated from Budapest University of Technology and Economics in 1985 as an electrical engineer. He started his career in Tatabánya in the field of the operation department of the power utility, where he gained management experience as an operational manager, which laid the foundation for his next strategic management responsibilities.

He managed extensive integration and restructuring projects after the privatization of the Hungarian energy companies in a multinational environment at E.ON companies in Hungary, continuously improving the quality and efficiency of energy services. He had played a key role in the technological modernization of the Company Group's energy networks and the renewal of operational processes.

In the last period of his career at E.ON he supported the large-scale development of the region's economy by providing reliable electricity services as the Regional Head of E.ON Észak-Dunántúli Áramhálózati Zrt. until 2019 with the help of 700 employees.

He continued his professional career as the managing director of Roneko Kft., an electrical contracting company in 2019.

He has joined TIGÁZ as a Deputy CEO in the September of 2020 with 35 years of professional experience in the energy service industry and more than 30 years of management experience. His main task involves, in addition to the implementation of the change of ownership, the professional managing of the project which prepares the acquisition of E.ON Tiszántúli Áramhálózati Zrt.

He took over the management of TIGÁZ as a CEO on the 1st of April 2021, and at the same time he is also the Head of the Energy Division of OPUS GLOBAL Nyrt.
