

Increasing export turnover ratio

15th of August 2023. Net sales of ANY Security Printing Company PLC for the first half of 2023 amounted to HUF 26.2 billion, while export sales amounted to HUF 12.9 billion, representing an export share of 49%.

Net sales of ANY Security Printing Company PLC for the first half of the year amounted to HUF 26.2 billion, HUF 2.9 billion higher than the base period of the previous year. The value of exports was HUF 12.9 billion, HUF 4.7 billion, 58% higher than the turnover in the same period of the previous year. Consolidated EBITDA was HUF 3 717 million. Consolidated profit for the period is HUF 1 490 million.

"In the 20 years of export market expansion of the printing company, it is an outstanding achievement that the share of export sales in turnover has risen to almost 50%. A major contributor to this growth was the revenue generated from the first phase of the Angola project, which involved the implementation of the passport issuing system. In addition to the Angola project, passports and other paper-based security documents produced for international markets contributed significantly to the increased revenue in the "security products and solutions" segment.

However, our results are still affected by the unfavourable economic environment, including the negative impact of exchange rates and interest rates, as well as significant cost increases for services.

Continuous development and improvements are the key to our stable operations and successful presence in domestic and foreign markets. In addition to technological investments, a strong focus is placed on the development of digital solutions, which will expand the product and service portfolio of all our subsidiaries." – added Gábor Zsámboki, CEO of ANY Security Printing Company PLC, to the first half-year report of 2023.
