

**Extraordinary Announcement of 4iG Plc.**  
on concluding a non-binding Memorandum of Understanding

4iG Public Limited Company (hereinafter referred to as: “4iG”) hereby informs the participants of the capital market that today a non-binding Memorandum of Understanding was signed between 4iG and the Albanian Government for the construction of a new submarine high-capacity data cable link between Egypt and Albania, opening a new data gateway to Europe.

Following the signing of the non-binding Term Sheet with Telecom Egypt in Budapest on 1 February, the Albanian Government today also expressed its commitment to the investment in the intercontinental submarine data cable system between Egypt and Albania. The planned submarine cable system will open a new data gateway to Europe and will provide an alternative route to the existing Mediterranean data links. The Albanian end point of the cable system could provide the shortest route to Frankfurt and other important international traffic destinations in Eastern and Central Europe and the Balkans, such as Belgrade, Sofia, Vienna and Budapest.

The previously published extraordinary announcement on the Term Sheet concluded with Telecom Egypt is available at the following link:
