About me

Hello!

My name is Leon Diepenhorst. 38 years old, father of three and living in Rotterdam, The Netherlands.

As an accountant I am passionate about helping and learning from entrepreneurs. In my private life, I enjoy my family, the city life and cultural activities.

With a university post-master's degree in accounting at the Erasmus University Rotterdam, I am registered as Chartered Accountant (Registeraccountant in Dutch) at the Royal Netherlands Institute of Chartered Accountants (NBA).

I have 15+ years of experience in accounting, auditing and advisory services for medium- and large-sized private companies and organizations.

I worked for various clients of different corporate structures and sizes, up to revenues of 100+ M and staff of 250+. Clients in various industries, such as private equity investment, tech, real estate and the innovative sector.

Both nationally and internationally. From start-ups that want to get their feet on the ground in The Netherlands, to scale-ups that are facing their specific challenges. As well as established names that want to maintain or improve their strategic position, or approach their (shareholder) exit phase.

Over the years I became an expert in the field of accounting and advisory, financial reporting and reporting standards.

I put genuine involvement and dedication in my work. I take my role serious and strive for a high quality in my job. I characterize myself as social, extravert and outspoken.

About AbmaDiepenhorst

Since 2021 I am co-founder and partner at AbmaDiepenhorst Accountants.

AbmaDiepenhorst is a modern, boutique accounting firm that stands out in its commitment to their clients and the high-quality of services.

Our services revolve around sharing knowledge and experience. Based on a personal approach and genuine engagement.

As a one-stop-shop firm, we offer full-service accounting, audit, tax and advisory solutions, with a multidisciplinary team of (chartered) accountants, tax advisors and other experts.

The firm is affiliated with the Royal Netherlands Institute of Chartered Accountants (NBA) and the Association of Accountancy firms in the SME sector (SRA).

Supervisory Board member OXO Technologies Holding NV

I am eager to use my experience to assist OXO in their new phase of relocating its headquarters to The Netherlands and help further grow as investment company in the innovative tech industry.

Therefore I apply for the position as Supervisory Board member of OXO Technologies Holding NV (to be incorporated). As a supervisory board member, I can be a steady foothold for OXO in The Netherlands.

With a broad and long experience in attending supervisory board and audit committee meetings as an accountant, I believe I have a pretty good understanding of the dynamics and responsibilities of a supervisory board.

Also, as a founding partner of a fast-growing accounting firm, I know what it takes to build an organization in a new environment, to manage a team of professionals and to satisfy clients.

I bring expertise to the table of which I believe is relevant for a supervisory board and audit committee of a firm like OXO. Such as in dept knowledge of reporting standards, financial reporting, internal control and auditing in The Netherlands.

Also I know my ways on topics regarding corporate structures, legal entities and general corporate and tax law topics.

Furthermore, I have an extensive network of high-quality professional service providers, such as notary and legal firms. And in my daily business I work with clients in the investment space (VC/private equity) and with various start- and scale-ups.

Looking forward to this next journey!
