Extraordinary Announcement of 4iG Plc.
on the creation of a new business line

4iG Public Limited Company (“4iG”) hereby informs the participants of the capital market that 4iG is preparing the necessary steps to create a new energy business line, as part of this process 4iG will establish a new holding company.

4iG has signed a non-binding Letter of Intent (“LOI”) with X-Energy Reactor Company LLC, which provides modular nuclear reactor technology, nuclear fuel, and related services. The purpose of the LOI is the commercial deployment of X-energy's Xe-100 reactor technology in Central and Eastern Europe and the Western Balkans.

4iG’s 100%-owned subsidiary, 4iG Investment Ltd. has also submitted a non-binding offer for the potential acquisition of the shareholding representing 100% of the registered capital of a company is developing a medium-scale, turnkey wind farm in Poland. Due diligence on the project is now under way.

The Group is also exploring wind power and related energy storage in North Macedonia. The project under consideration could involve more than 100 MW of wind capacity

4iG is reviewing business and investment opportunities in the renewable energy sector in Montenegro, as well as related grid, energy supply and digital infrastructure solutions.

4iG will inform the participants of the capital market about the results of the reviews.

4iG’s wholly-owned subsidiary, 4iG Investment Ltd., has submitted a binding offer to the other owners of the iG Tech Energy Private Equity Fund to acquire their Series “A” investment units. This opens a multi-stage transaction that would give 4iG ownership of the fund's project company, which holds 49 percent of a 158 MW wind farm portfolio at five sites in north-western Hungary. The portfolio accounts for close to half of Hungary's installed wind capacity.
