BSE calculates each OTR for each trading day per Exchange Members and per individual instruments using the following formulas for each trading day, taking into account all trading periods of the trading day:

$$OTR_{no} = \frac{Number\ of\ orders\ entered\ by\ Exchange\ Member}{Number\ of\ orders\ entered\ and\ executed\ by\ Exchange\ Member + minimum\ value\ of\ denominator} - 1$$

$$OTR_{vol} = \frac{The\ total\ value\ of\ orders\ entered\ by\ Exchange\ Member\ (volume)}{The\ total\ value\ of\ entered\ and\ executed\ orders\ by\ Exchange\ Member (volume) + minimum\ value\ of\ denominator} - 1$$

In the denominator of OTR formulas contains all executed orders including partially executions and minimum value specified for the given instrument group is also added while in the numerator all orders are aggregated including entered, modified and deleted orders.

20   Extract from CEO Resolution No. 550/2013 of the Budapest Stock Exchange Ltd.

Orders that are deleted out of the Exchange Member's intention – e.g. deletion made by the Exchange, orders not accepted at auction, deletion due to lost connectivity or due to activation of Kill funcionality - won't be taken into account while calculating OTR indicators.

When calculating the OTR_{vol} for different sections the transaction values (volumes) are determined as follows:

- Equities section, BETa market: volume
- Debt security section: nominal value
- Derivatives market, Commodity market: number of contracts

When calculating OTR formulas, type of orders and restrictions are taken into account with the following weighting factors:

Weights according to the type of order and restrictions	
Order type	**Weight multiplier**
Limit order submission/deletion	1
Limit order modification	2
Market order submission/deletion	1
Market order modification	2
Iceberg order submission/deletion	1
Iceberg order modification	2
Stop, Trailing Stop, OCO order submission/modification	1 (in case of activation 2)
Stop, Trailing Stop, OCO order deletion	1
Quote submission/deletion (Standard Market Maker Order, Matching quote, Price without turnover quote)	2
Quote modification (Standard Market Maker Order, Matching quote, Price without turnover quote)	4
Order restriction	**Weight multiplier**
Immediate-or-Cancel	1 (in case of withdrawal/deletion 2)
Fill-or-Kill	1
Book or Cancel	1

BSE measures OTR indicators for individual instruments on daily basis, and report those formulas to Exchange Members (only the relevant ones) on a monthly basis showing their daily performance and their possible limit exceeds.

If BSE determines that the OTR indicators calculated above exceeds at least one of the predefined maximum value in respect of one or more individual instrument for a given Exchange Member more than in 3 trading days of a calendar year, then the Exchange may warn the Exchange Member within 3 trading days and may apply sanctions in accordance with the authorization granted in Section 11 of Chapter 1 of Part II of the Book Three of the General Terms of Service of the Budapest Stock Exchange Ltd. titled Regulations on Trading.

The CEO of BSE continuously monitors the OTR indicators per Exchange Member and per individual instruments, and if justified by market conditions maximum OTR numbers will be modified.
